When my grandma was in Primary 4

By Anna

I talked to my grandma about her school life when she was in Primary 4,

There were some computers in my grandma's school. There weren't any conditioners in her school.
There weren't any swimming-pool in her school.

Nobody in my grandma's class played electronic games. Everybody in my grandma's class played hopscotch.

My grandma could go to school by herself. My grandma didn't have a tutor so she studied English and Chinese by herself.
